

## Accessories - Electromagnetic Fire Door Holders

A range of high quality electromagnetic door holders, engineered from durable die-cast metal.

- Very low current draw
- Robust construction
- Dual voltage inputs
- Terminal block connections
- High holding force
- Low residual magnetism
- Adhesive mounting template and instructions

### Performance

#### EM24220

Voltage	24v	220v	
DC/mA	20	-	
AC/mA	19	15	
Terminals	C & L	C & H	
Holding forces	20lb (9.0kg)	22lb (9.8kg)	

#### EM1224

Voltage	12	24v	24v
DC/mA	40	40	85
AC/mA	38	36	81
Terminals	C & L	C & H	C & L
Holding forces	30lb (13.6kg)	30lb (13.6kg)	75lb (34kg)

### BS EN 1155

Electromagnetic fire door holders are tested to BS EN 1155 – electrical standards.

### Options

Extension and misalignment rods	Optional
Extension wrench	Optional
Surface mounted back box	Optional
Time saving drill feature (for mounting catch plate)	Optional
Finishes available	SE/EB/SNP/PNP
Release button	Optional

Certificate No. WQM 132
